TARIRO Hope for Youth in Zimbabwe

Tariro UK

A presentation on the work in Zimbabwe

History in Zim

- The Community of the Resurrection has been involved in charitable work in Southern Africa since 1903.
- In 1914 work began at St Augustine's, Penhalonga in Zimbabwe and although CR left in 1983 this remains a centre for Tariro's work with young people.

TARIRO Hope for Youth in Zimbabwe

Hope

- Tariro UK is a charitable trust. Charitable trusts are made up of individuals ("trustees") who hold funds to promote charitable purposes.
- The charitable purpose of Tariro UK is to advance in life and relieve the needs of young people in Zimbabwe by providing financial support to help them develop their skills, capacities and capabilities.
- The word TARIRO means "Hope" in one of the languages of Zimbabwe, Shona. TARIRO UK aims to give hope to young people in Zimbabwe by fulfilling our charitable purpose

UK charity

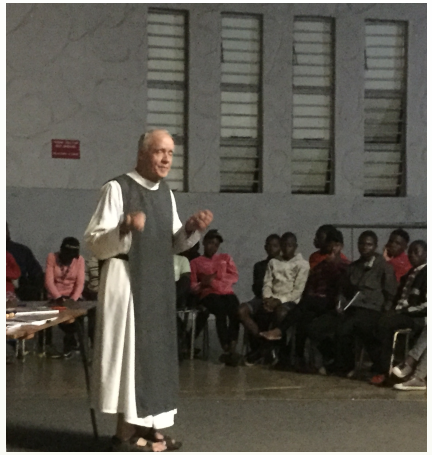
- Tariro UK was founded in November 2009 by Nicolas Stebbing one of the brothers of the Community of the Resurrection (CR) with the agreement of the Community and with the help of lay volunteers.
- There are now two CR brothers acting as trustees (Nicolas Stebbing and George Guiver), four other trustees (two lawyers, a banker and a strategy consultant) and also a very able volunteer book keeper (who is an accountant).
- Tariro UK also has a patron, Bishop Jack Nicholls

Fund raising

- Tariro UK raises money in the UK and donates that money to projects in Zimbabwe that support young people. The projects are carefully selected by the trustees of TARIRO using the historic connections CR has in Zimbabwe and the knowledge that Nicolas Stebbing (born in Zimbabwe) has of the situation in Zimbabwe.
- The funds nearly all come from close friends and supporters of CR, churches, and Christian trusts. Tariro is slowly building up its own family of supporters and we need to find more of these so that we can support our young people into the future.
- We also have some merchandise available for sale, such as a CD of our young people singing in Shona, available for £7.50.

Monitoring

- As well as Tariro UK giving money, Nicolas Stebbing (sometimes with other trustees) visits the projects in Zimbabwe at least twice a year for around one month each time to offer guidance and advice to the projects in Zimbabwe, to see how the money we donate is being spent, and to see the children being supported by the projects.
- The projects and the children and young people they support are therefore known inside out.



How we spend our donations

- The only expenses to come out of the donations are accountant's fees and occasional local expenses (website maintenance for instance).
- This pie chart is from our 2017 accounts.

Project 1: Tariro House in Harare (TYP)

- Tariro UK has supported this project since it was set up in Zimbabwe in 2009. The 17 young people aged between 16 and 25 live in a suburban house and attend school and college. This is their home for as long as they want to stay.
- Several have recently moved away to get married or to take on jobs, but they still come back as older brothers and sisters which gives the house a good family feel. The young people run the house themselves with support from local trustees.

More on TYP

- Tariro UK pays for rent, groceries, personal needs and school fees – everything in fact that parents spend on their children.

- There have been some wonderful success stories from the project:
  - Three young men, Edwin, Fidelity and Byron, are all married with a child and a good job.
  - Two young men are finishing their courses this year in medicine.
  - A young woman with very little education is earning a living making non precious jewellery.
- But the best part is just meeting these youngsters and finding them mature, happy well adjusted young adults. Tariro has helped them overcome the deprivation and trauma of the past and they have become fine young people.

Project 2: Tariro for Young People

- This is a project which cares for young people within their families in the rural areas. Most are orphans living with very poor relatives. The project gets them back into school, makes sure they have all they need to study and ensures they are well fed.
- If they do well enough the project supports and funds them at boarding school, which they love as they can study better, are better looked after, and escape from their often abusive homes. They also do very well academically which makes it possible for them to escape the poverty trap of rural life.

How you can help

- As you can see we have regular monthly commitments like groceries and school fees. It makes a huge difference to us to be able to receive regular funds as we can commit to projects with more confidence. A regular donation of even £5 per month makes a big difference over time.
- We also welcome one-off donations of any amount, for example, just £30 could buy a solar lamp for a child completing homework after dark (6pm) in a home in the rural areas without electricity.
- Please spread the word! Visit us at tarirouk.com, follow us on

Community

- The people that contribute regularly are part of the Tariro family and are able to meet the trustees and each other at receptions we arrange each year in London and at the House of the Resurrection in Mirfield.
- In order to give by standing order all you need to do is fill out one of the forms we have brought along and hand it to the person doing this presentation. The Tariro trustees will arrange all the rest

Thank you

Your support means young people in Zimbabwe can hope for a better future.
